

# DT - 35 Dip Tank

The DT-35 is a dip tank style wash system. The entire system is 60.5 gallons with 43.4 gallons in the wash tank, and 17.1 gallons in the recirculation tank. It has start and stop buttons on the control box along with an Emergency stop button. The DT-35 connects to a chiller or is chilled with ice in the recirculation tank. It comes with 2" drains on both main wash tank and also on the recirculation tank. The DT-35 has a wedge wire filter screen over the recirculation tank to remove fines. It features an "On Deck" basket station over the recirculation tank for operator ease of use. Made in the USA.

# Specifications
